Covid-19 evolution, North America (data from JHU CSSE 5/17/20, day 0=1st day with deaths ≥10)

- **Total number of deaths for 10^6 people**
- **Deaths by day for 10^6 people (\(\Delta\text{deaths} / \Delta t\), population)**
- **Total number of deaths for 10^6 people (log scale)**
- **Deaths by day for 10^6 people (log scale)**
- **Growth rate (%) of deaths (\(\Delta\text{deaths} / \text{deaths}\))**
- **Acceleration of deaths for 10^6 people (\(\Delta^2\text{deaths} / \Delta t^2\), population)**

Note: The graphs display trends and data related to the number of deaths over time, with specific focus on North America. The growth rate and acceleration are shown on both linear and logarithmic scales.
