Covid-19 evolution, 10 most affected countries (data from JHU CSSE 6/1/20, day 0=1st day with deaths ≥ 10)

- **Total number of recovered**
- **Total number of recovered (log scale)**
- **Growth rate (%) of recovered**
- **Acceleration of recovered**

The graphs show the evolution of the number of recovered cases over time for the 10 most affected countries, using different scales and calculations. The growth rate and acceleration provide insights into the rate of recovery and its changes over time.
